PRODUCT INFORMATION

OPTRAMATIC 500 DUO T6

Branchpipe DMRS type, with regulation of pressure incorporated system, with adjustable flow-rates and patterns with a special tactile and visual warnner for the flash over position (60°)

 See the corresponding data sheet
OPTRAMATIC 500 DUO T6

Key information

> Regulation selector with the following positions:
" regulation 250/6" with flow-rates adjustable with the handle (90-170-250 l/min at 6 bar).

"Basse Pression 500/6" (Low pressure 500/6):

- at 3,5 bar, flow-rate of 380l/min with the handle wide open
- at 6 bar, flow-rate of 500 l/min with the handle wide open.

> To change from "Regulation 250/6" to "Basse pression 500/6", the water flow remains constant and whatever the selected pattern

A high quality pattern

RPONS is a leading professional company in the design and production of fire fighting equipment! RPONS offers a complete range of high quality products. Our branchpipes have been designed to insure the total safety of the fire fighter in case of highly risky operations. Ergonomics has been studied to offer the best operation comfort.

T type

The combination between the row of fixed teeth and the spinning teeth produces a full and homogeneous water cone, constituted with very thin droplets.

With the wide spray jet position selected, the firefighter is totally protected by a large shield (130°), avoiding any fire-back.

HYDRAULIC PERFORMANCES

	"Regulation" position	"Low pressure" position
Flow rate (l/mn)	250	500
Horizontal throw-range at 30° - Straight jet	31	36

COMMUNICATION

Young European Fire-Fighters days in Liege, Belgium

RPONS took part of this European event, convinced about the importance of the right training of the future fire-fighters. Theoretical training infrastructures and also practical centers are getting developed but still are not sufficient compared to the real needs.

The way is long to know and tend to master the fire. Trainer teams such as the professional of the Fire School of Liege are here to share their knowledge with the young firemen and help them in developing good reflexes, for the effective control during interventions.

Efforts in training are done, but there's a lot to do still...

COMMUNICATION

R. PONS will attend
119th Congrès des Sapeurs-Pompiers
Amiens

HALL CHAPITEAU
STAND 677

As each year, RPONS will attend the Congrès des Sapeurs Pompiers (French Fire Brigade Congress) which will take place in Amiens, the 27th to the 29th of September 2012.

The whole team will be happy to welcome you on our booth to present you our new products.

We are expecting you !
